**DETAILED ACTION**

1. The Board of Patent Appeals and Interferences (BPAI) Decision mailed on 6/17/2009 has been considered and entered in the case.
2. The Board of Patent Appeals and Interferences affirmed the rejection against independent claims 1, 7 and 14, but reversed all rejections against claims 8-13 dependent thereon. The independent claims are cancelled by the examiner in accordance with MPEP § 1214.06
3. The period under 37 CFR 1.304 for seeking court review of the decision by the BPAI rendered on 6/17/2009 has expired and no further action has been taken by appellant. The proceeding as to the rejected claims are considered terminated; see 37 CFR 1.197(b). The application will be passed to issue on allowed claims 8-13.

**EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
5. The application has been amended as follows:  
  
In the CLAIMS:  
  
Cancel claims 1-7 and 14-26.  
  
Rewrite claim 8 as follow:  
  
**8. (Currently Amended)** A method for detecting an obstruction in a path of an openable member, comprising the steps of:

indirectly detecting the obstruction by detecting a force exerted by the obstruction on the openable member using an indirect detector;

outputting openable member position information;

directly detecting the obstruction in the path of the openable member with a direct detector based on the openable member position information, wherein the direct detector includes a sensor;

using the openable member position information to define operating parameters of the direct detector; and

wherein the step of directly detecting the obstruction comprises detecting a light distribution along a closing line of the openable member.

***Allowable Subject Matter***

6. Claims 8-13 are allowed.

7. The following is an examiner's statement of reasons for allowance:

**Claim 8:** The claim is allowable for the reasons set forth on pages 16-18 of the decision of the Board of Patent Appeals and Interferences, which is hereby incorporated by reference. As noted therein, and as argue on page 8 of Appellant's brief, the claimed invention requires detecting a light distribution along a closing line of the aperture, whereas the closest prior art requires detecting information along the entire space of the aperture which does not teach or suggest the claimed invention.

**Conclusion**

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
